PROJECTS:

Portfolio Website: *HTML | CSS | JavaScript*

- Designed and developed a fully responsive personal portfolio website to showcase projects and technical skills
- Implemented modern UI using CSS Flexbox and media queries for seamless experience across devices
- Structured multiple sections including About, Projects, and Contact with smooth navigation
- Focused on clean design, accessibility, and user-friendly interface for better user engagement
- Optimized layout and styling for faster loading and improved performance

Roommate Finder Web-App: *React | NodeJS | JavaScript | MongoDB*

- Developed a full-stack web application to help users find compatible roommates
- Built dynamic frontend using React (Vite) with reusable components
- Designed backend using Node.js and Express with proper MVC structure
- Implemented REST APIs for handling user data and interactions
- Used MongoDB for storing and managing application data
- Integrated Axios for seamless communication between frontend and backend
- Implemented form handling and validation for better user experience

Rock Paper Scissors Game: *HTML | CSS | JavaScript*

- Developed an interactive game using JavaScript with real-time user input handling
- Implemented core game logic including random computer choices and score tracking
- Designed engaging UI with dynamic updates based on game results
- Enhanced user experience with visual feedback and smooth interactions
- Ensured proper game flow and error-free functionality

EDUCATION:

Integral University Lucknow, India

Bachelor of Technology in Computer Science and Engineering *2023 - Present*
